

## ANSWERING REVIEWERS

September 2, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 12527-review.doc).

**Title:** Screening analysis of candidate gene mutations in a parentage with polycystic liver disease

**Author:** Song Jin, Ziqiang Sun, Fachang Yu, Zhendan Wang, Pang Li, Feifei Li, Kenan Gong, Kai Cui, Sheng Li

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 12527

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated.

2. Revision has been made according to the suggestions of the reviewer

(1) Reviewed by 00071717

Authors was analysed the potential mutable sites of the polycystic liver disease genes in a parentage with PCLD patients. The research and findings are important. It is novel but the manuscript readability is low. Manuscript should be evaluated by native English speakers.

RE: I should like to express my appreciation to you and the referees for suggesting how to improve our paper. We found the referee's comments most helpful and have revised the manuscript.

(2) Reviewed by 00187828

The manuscript entitled the screening analysis of candidate gene mutations in a parentage with polycystic liver disease by song Jin et al., is presenting an interesting case. However there are extensive problems with the language. It should be better presented in order to be accepted for publication in the journal.

RE: We are pleased to note the favorable comments of reviewers in their opening sentence. The problems with the language have evaluated by native English speakers.

3. References and typesetting were corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Sheng Li, MD,
