

## Format for ANSWERING REVIEWERS

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 12729-edited-F.doc).

**Title:** Tick-borne encephalitis

**Authors:** Petra Bogovič, Franc Strle

**Name of Journal:** World Journal of Clinical Cases

**ESPS Manuscript NO:** 12729

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) We would like to thank the reviewer for the encouraging comments.

(2) As suggested by the reviewer we added a paragraph on pathogenesis of TBE and on histological findings to the revised version of the article. However, we did not substantially change the last part of the article that was found to be weak by the reviewer and were not able to find any substantial inaccuracies. The conclusions have been presented in the initial version of our review.

(3) According to the reviewer's comments we added information on vaccination for the travelers to the TBE endemic areas, and corrected the geographic location of TBE in Japan – thank you very much for pointing to this mistake.

3 References and typesetting were corrected.

Thank you again for publishing our manuscript in the World Journal of Clinical Cases.

Sincerely yours,

September 16, 2014
