Dear Editor,

This is to certify that I have reviewed and edited the article written by Kai Qu *et al.* entitled “Polymorphisms of glutathione S-transferase genes and clinical outcome of Chinese patients with resected hepatocellular carcinoma”. I think the manuscript has reached language grade for publish.

If you need any additional information, just contact me at my email [dchang@mdanderson.org](mailto:dchang@mdanderson.org).

With best regards.

Yours sincerely,

A handwritten signature in black ink that reads "David Chang".
