Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 12952-review.doc).

Title: Conservative management of cervical pregnancy with intramuscular administration of methotrexate and KCl injection: Case report and review of the literature

Authors: Stamatios Petousis, Chrysoula Margioulas-Siarkou, Ioannis Kalogiannidis, George Karavas, Vasileios Palapelas, Nikolaos Prapas, David Rousso

Name of Journal: *World Journal of Clinical Cases*

ESPS Manuscript NO: 12952

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

Reviewer 1:

-Introduction section has been modified according to recommendation (lines 5-7 of second paragraph of Introduction)

-Contraceptive counseling of patient has been specified according to recommendation (last paragraph of Case Report section)

-Cost effectiveness of invasive vs. conservative management has not yet been studied. This was also mentioned in the last paragraph of Discussion according to recommendation.

-The patient tolerated well intramniotic injection and this was also added in the end of third paragraph of Case Report section.

-Final paragraph has been modified according to recommendation.

Reviewer 2:

-Title was revised according to request of Reviewer 2 and KCL injection was also added.

-Cardiac activity was detected at the time of diagnosis (paragraph 2 of Case Report section).

-The pregnancy was spontaneous (paragraph 1 of Case Report section).

Reviewer 3:

-It was not possible to report the size of the ectopic mass as requested.

-Scale bars have been included in Figures.

-Reasons for MTX administration intramuscularly have been added in the second paragraph of Discussion.

-Full terms have been included instead of abbreviations for their first appearance as requested.

-Typographical errors have been checked as requested.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Clinical Cases*

Sincerely yours,

Stamatios Petousis, MD, MSc, PhD(c)
