

Format for ANSWERING REVIEWERS

October 13, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 12960-review.doc).

Title: Evaluation of chronic kidney disease in chronic heart failure: from biomarkers to arterial renal resistances.

Author: Massimo Iacoviello, Marta Leone, Valeria Antoncetti, Marco Matteo Ciccone

Name of Journal: *World Journal of Clinical Cases*

ESPS Manuscript NO: 12960

The manuscript has been improved according to the suggestions of reviewers:

(1) Review submitted on 2014-08-27 02:47 *there are no specific comments.*

We thank the reviewer for his/her revision.

(2) Review submitted on 2014-09-03 22:18. *Excellent review suming up current diagnostic means of determining renal function in CHF patients. The authors should underscore that GFR is a stronger predicotr for mortality than EF (Hillege et al.) I have no further objections.*

We thank the reviewer for his/her comments. Accordingly we have further underlined the prognostic role of GFR.

Thank you again for publishing our manuscript in the *World Journal of Clinical Cases*.

Sincerely yours,

Massimo Iacoviello, MD, PhD
