

## ANSWERING REVIEWERS

September 23, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 13040-review.doc).

**Title:** Nasobiliary drainage after endoscopic papillary balloon dilatation may prevent postoperative pancreatitis

**Author:** Xiao-Dan Xu, Jian-Jun Dai, Jian-Qing Qian, Wei-Jun Wang

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 13040

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) Please report the dosage of midazolam, meperidine and hyoscine butylbromide used during endoscopic procedures.(Dosages have been added.)

(2) please emphasize the concept that the alternative use of plastic endoscopic biliary stent compared to the nasobiliary drainage requires a second endoscopic procedure in the introduction section, after the abstract.(Added in the introduction section: Although There are two endoscopic drainage methods, external drainage (by ENBD)and internal endoscopic biliary drainage (by plastic endoscopic biliary stent), the use of plastic endoscopic biliary stent requires a second endoscopic procedure...)

(3)\_typo and grammar errors(According to **BPG's Revision Policies**, this manuscript has been edited by English language editing company .)

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'XU Xiao-dan', is placed over a light gray rectangular background.
