

To,

Xiu-Xia Song sir,

Vice Director,

Editorial Office,

World journal of clinical cases.

Subject : in reference to manuscript number : 13162 – ethics committee clearance.

Respected sir,

With reference to manuscript number: 13162, I am hereby mailing you the consent form and conflict of interest certificate to you for the publication of “Composite pheochromocytoma masquerading as solid pseudopapillary tumour of pancreas”. I am not forwarding any ethics committee clearance certificate as me and the rest of authors do not feel the need to have ethics clearance as we are only describing a histological surprise in an operated patient for the purpose of medical education. We have not conducted any intervention or experimental study and thus it is my humble request to consider the same and do the needful.

Thanking you,

Your's sincerely
Dr.Sundeep Saluja
