

## ANSWERING REVIEWERS

October 1, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 13174-review.docx).

**Title:** Endoscopic therapy for esophageal hematoma with blue rubber bleb nevus syndrome

**Author:** Mika Takasumi, Takuto Hikichi, Tadayuki Takagi, Masaki Sato, Rei Suzuki, Ko Watanabe, Jun Nakamura, Mitsuru Sugimoto, Yuichi Waragai, Hitomi Kikuchi, Naoki Konno, Hiroshi Watanabe, Katsutoshi Obara, Hiromasa Ohira

**Name of Journal:** *World Journal of Gastrointestinal Endoscopy*

**ESPS Manuscript NO:** 13174

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated. Red words indicate the parts that I changed according to the reviewers.

2 Revision has been made according to the suggestions of the reviewer

- (1) We added a comment when the patient was diagnosed as BRBNS before the bleeding episode in line 3 on page 6. Actually, the patient was diagnosed to have BRBNS since teen due to her skin hemangiomas.
- (2) We treated with total parenteral nutrition and nothing by mouth before endoscopic treatment. We describe that in line 7-8 on page 6.
- (3) We describe the patient's body height and weight in line 12-13 on page 6.
- (4) We mistyped Page 7 line 5 as "Abdominal strain was apparent...". Correctly, the patient had no history of vomiting, abdominal straining after excessive eating and drinking.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastrointestinal endoscopy*.

Sincerely yours,

A handwritten signature in black ink that reads 'Takuto Hikichi'.
