Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 13231-Edited.doc).

Title: Incidence and psychological-behavioral characteristics of refractory functional dyspepsia: A large, multi-center, prospective investigation from china

Author: Shu-man Jiang, Lin Jia, Xiao-gai Lei, Ming Xu, Sheng-bing Wang, Jing Liu, Min Song, Wei-dong Li

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 13231

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

At present, there is no unified and precise definition of RFD. In this study, RFD was defined according to both Rome III criteria and the criteria of Hamilton et al. There were two characteristics in the definition, including continuous symptoms for at least 6 months and failed to respond to at least two medical treatments.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Jia Lin, MD, Professor
