1 Format has been updated

Format for the case report has been updated.

2 Revision has been made according to the suggestions of the reviewer

- (1) Interesting case. A major repair: the submitted manuscript is not in the final version (there are a lot of track changes). This shows a lack of professionalism. I recommend to try to improve the quality of figure 1.

The manuscript in the final version was submitted. A lot of track changes were deleted.

The quality of figure 1 was improved.

- (2) The withdrawal of the spoon should be photographed.

The photograph of the spoon (figure 1) was changed.

3 References and typesetting were corrected
