**Re: WJV 1364: HT-RNAi screens integrative analysis: towards a comprehensive understanding of the virus-host interplay**

Dear Su-Xin Go,

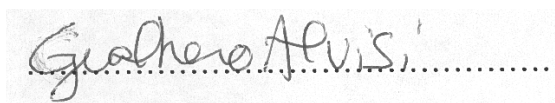

On behalf of all the manuscript's authors, it is my pleasure to declare that we feel that our work reaches a "Grade A" English quality and therefore doesn't require any further revision by professional language editors.

I thank you for your help and your kind assistance.

Best regards,

Gualtiero
