Language certification

To whom it may concern

I have read the text of the paper on “Device-assisted enteroscopy — indications, diagnostic yield and complications” by Dr. Oliver Möschler and colleagues at the Marienhospital in Osnabrück, Germany. I hereby declare that the English of the paper is idiomatic, fluent and correct and that it fully meets the “Grade A” standard required by the *World Journal of Gastroenterology*, published by the Baishideng Publishing Group.

Dr. Michael Robertson

(B.A., University of Stirling, UK; D.Phil., University of York, UK)
