Dear Editor,

Title: CHEMOTHERAPY FOR CHOLANGIOCARCINOMA: AN UPDATE

Author: Natalia Ramírez Merino.

Manuscript No: 1459

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated
2. Revision has been made according to the suggestions of the reviewer:
 1. The WJG's instructions to authors for submitting articles for consideration for publication under Field of vision are to pick up a published article and to comment on the implications of its outcome.
 2. According suggestions of reviewers, more current literature has been reviewed, for more clear recommendations about the role for adjuvant chemotherapy: Including:
Chemotherapy for the biliary tract cancers: moving toward improved survival time. Romit A et al. Journal of gastrointestinal cancer. Sept 2012.
Bilcap study, that shows significant benefit from adjuvant chemotherapy.
3. The conclusions for this review also have been improved, including conclusions for early stage and for metastatic disease, so they are general conclusions.
3. References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Natalia Ramírez Merino.
