Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 14601-review.doc).

Title: New NCI-N87-derived human gastric epithelial line after human telomerase catalytic subunit over-expression

Author: Kathy Saraiva-Pava, Nazanin Navabi, Emma C. Skoog, Sara K. Lindén, Mónica Oleastro, Mónica Roxo-Rosa

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 14601

1 Revision has been made according to the suggestions of the reviewer

(1) As the parental cell line has been established from a tumor, these subclones should also maintain the same malignant phenotype. This is an obvious limitation in their use for cancer related studies.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Mónica Oleastro
