

January 13, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: Revised_Neoadjuvant chemotherapy in ovarian cancer_13 Jan 2013).

Title: Neoadjuvant chemotherapy and cytoreductive surgery

Author: Siriwan Tanjitgamol, Jitti Hanprasertpong, Marta Cubelli, Claudio Zamagni

Name of Journal: *World Journal of Obstetrics and Gynecology*

ESPS Manuscript NO: 1461

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated
2. Revision has been made according to the suggestions of the reviewer and were highlighted in yellow.
 - 1). The main title should be changed to "Neoadjuvant chemotherapy and cytoreductive surgery in epithelial ovarian cancer".
We added it.
 - 2). Page 4: The study on NLR and PLR remains to be immature as an inflammatory marker. The authors should revise the description of inflammatory markers in a more shortened description.
We shortened this part from 521 words to 358.
 - 3). Page 4 line 5: relationshis→relationships
Thank you.
 - 4). Page 16 line 22: at the time of IDS as that at PDS→in IDS as that in PDS
We found this on page 18 and revised them.
 - 5). The reviewer sometimes found "Unfortunately" in the text. The term "Unfortunatly" does not seem inappropriate in the scientific sentences.
We revised it (on page 3 and 5).
3. References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Obstetrics and Gynecology*.

Sincerely yours,

Siriwan Tangjitgamol, MD
