

## Institutional Review Board Statement

14<sup>th</sup> of January 2015

Dear Editor,

**Title:** Reactive lymphoid hyperplasia of the liver: perinodular enhancement in the arterial dominant phase on contrast-enhanced CT and MRI

**Author:** Tetsuo Sonomura, Shinpei Anami, Taizo Takeuchi, Motoki Nakai, Shinya Sahara, Hirohiko Tanihata, Kazuki Sakamoto, Morio Sato

The patient had a standard treatment which was approved ethically. At our institution, approval of the Institutional Review Board is not required for retrospective case reports.

Sincerely yours,

*Tetsuo Sonomura*
