Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 15159-review.doc).

**Title:** Limitations of Multimodality Imaging in the diagnosis of pannus formation in prosthetic aortic valve and review of the literature

**Author:** Juan Bautista Soumoulou, Tom s Francisco Cianciulli, Andrea Zappi, Alberto Cozzarin, Mar a Cristina Saccheri, Jorge Alberto Lax, Robert Guidoin, Ze Zhang.

**Name of Journal:** *World Journal of Cardiology*

**ESPS Manuscript NO:** 15159

The manuscript has been improved according to the suggestions of reviewers:

<b>Comments To Authors</b>	The Discussion is too long. Please make it shorter than present style.
	The discussion has been shortened.

<b>Comments To Authors</b>	The literature about CT and pannus should be reviewed in more detail
	The literature about CT and pannus has been reviewed.

<b>Comments To Authors</b>	Only submit bibliographic references as exposed guidelines for authors of World Journal of Cardiology (number of authors)
	All References have been corrected and PMID was added.

<b>Comments To Authors</b>	Authors have made good and fluent review of pannus formation and presented a clinical case ignored by TEE and fluoroscopy
