First of all I would like to thank you for the comments on the manuscript. Reviewer's advices surely improved its quality.

The manuscript has been modified as follows:

Reviewer 1:

- 1) The title has been changed as suggested
- 2) The role of the computed tomography in the diagnosis of myocardial bridge has been discussed as suggested.

Reviewer 2:

- 1) All typos indicated have been corrected as suggested
- 2) Blood Biochemistry role in myocarditis diagnosis has been clarified as suggested

General:

- 1) The format has been updated as suggested
- 2) References and typesetting have been corrected as suggested
- 3) A copy of the informed consent has been attached as an additional file for Editorial use only (not for publishing)
- 4) Since this was a retrospective description of a clinical case the Ethical Committee approval was not required.
- 5) The conflict of interest statement has been added as suggested

Thank you again for publishing our manuscript in the *World Journal of Cardiology*.

Sincerely yours,

A handwritten signature in blue ink, appearing to read 'Paolo Borrione'.
