

Feb 2, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 16075-Revised.doc). Please note that all changes have been made using track changes to facilitate assessment by the senior editor(s).

Title: Silver Nitrate Mimicking a Foreign Body in the Pharyngeal Mucosal Space

Author: Devon Livingstone, Yazeed Alghonaim, Nathan Jowett, Eyal Sela, Alex Mlynarek, Reza Forghani

Name of Journal: *World Journal of Radiology*

ESPS Manuscript NO: 16075

The manuscript has been revised based on the suggestions of reviewers:

1. The city, province, postal code, and country for the institutions of all authors has been provided as requested.
2. A statement regarding Institutional Review Board approval and waiver of informed consent has been provided as requested and as discussed in earlier correspondence with the Science Editor.
3. A statement declaring no conflict of interest for the authors has been provided as requested.
4. As requested, we have added PMID and DOI to references, when available. Please note that some articles did not have a PMID or DOI upon query and in those cases these could not be added. This is indicated in the comments in the revised manuscript.

In addition to the requested revisions, the following revisions were also made to further improve the manuscript:

1. The core tip has been improved and expanded to better reflect the manuscript content and match the audio file. It is still less than 100 words as per article formatting instructions.
2. The figure panels are properly labelled to follow the journal format and the figure legends have been revised to better describe the findings in the figures.

The following supporting documents have been provided with the revised manuscript:

1. A scanned copy of the Institutional Review Board approval has been provided in pdf format.
2. An audio file of the core tip has been provided (recorded by the senior/ corresponding author).
3. The signed copyright assignment form has been provided in pdf format.

We would like to thank you in advance for considering the publication of our manuscript in the *World Journal of Radiology*.

Sincerely yours,

Reza Forghani, MD, PhD, FRCPC, DABR
