The manuscript has been improved according to the suggestions of reviewers:

Reviewer 1

Dear Authors, I have read with interest the paper.

Comment 1: The paper aims to show the intrinsic mechanisms to show the effect of T2DM. Many of the classical mechanisms are shown and explained. A figure of images should be considered for that purpose.

Amendment 1: We added a figure into the text as the referee stated.

Comment 2: Another comment is that some aspects (may be more recent) should be included such as biliary acids circulation, microbiota or even fecal transplant.

Amendment 2: A paragraph is added into the manuscript.

Comment 3: Many corrections must be done concerning the English spelling.

Amendment 3: Corrected throughout the entire manuscript.

Comment 4: Authors should include abbreviations for words such as RY Gastric bypass, sleeve gasterctomy....

Amendment 4: The mentioned phrases and other repeated terms are abbreviated throughout the manuscript.

Reviewer 2

The authors have made a good review of the mechanism of bariatric surgery on the mechanism of humoral control of metabolic derangements in obese diabetes mellitus patients.

However, I have the following comments.

Comment 5: Some mis-spelling words are noted in the manuscript.

Amendment 5: Corrected throughout the entire manuscript.

Comment 6: The authors should summarize the mechanisms of the DISCUSSION part into several figures, which could make the authors easier to realize the mechanism

Amendment 6: We added a figure into the text as the referee stated.

Editor

Comment 7: A conflict-of-interest statement is required for all article and study types.

Amendment 7: Added as the referee stated.

Comment 8: Please write a summary of less than 100 words to outline the most innovative and important arguments and core contents in your paper to attract readers.

Amendment 8: Written as the referee stated.

Comment 9: Please put the reference numbers in square brackets in superscript before the end.

Please check across the text.

Amendment 9: Corrected as the referee stated.

Comment 10: Please add PubMed citation numbers and DOI citation to the reference list and list all authors.

Amendment 10: Added as the referee stated.

Thank you again for publishing our manuscript in the *World Journal of Clinical Cases*.

Sincerely yours,

Suleyman Cetinkunar, MD
