

Biostatistics certificate

Manuscript title: Ameliorative effects of lutein on non-alcoholic fatty liver disease in rats

Authors: Xiang Qiu, Danhong Gao, Xiao Xiang, Yufang Xiong, Tengshi Zhu, Liegang Liu, Xiufa Sun, Liping Hao

The biostatistics in the manuscript were reviewed by Qionghong Duan, and the points were described as below:

(1) Statistical methods are adequately and appropriately described when they are used to verify the results;

(2) The statistical techniques are suitable;

(3) Only homogeneous data can be averaged. Standard deviations are preferred to standard errors;

(4) The word "significantly" is replaced by its synonyms (if it indicates extent) or the *P* value (if it indicates statistical significance).

A handwritten signature in black ink on a light gray background. The signature is written in a cursive, flowing style and reads "Qionghong Duan".

Qionghong Duan
