Dear Dr. Ferder,

The institutional Animal Care and Use Committee (IACUC) reviewed your application requesting the use of animals in research for the study # LF-07 entitled "Protective Efficacy of Zemplar and Enalapril on Cardiorenal Oxidative Stress in Atherosclerosis". The IACUC approved your request to use the the following animals in your protocol:

Mouse ApoE <sup>-/-</sup> (Female)	48
Mouse C57BLV (Female)	12

IACUC approval is granted for five years at the end of the which, a renewal form must be submitted for years 6-10 of the protocol.

All modifications to the IACUC Approved Protocol must be approved by the IACUC prior to initiating the modifications.

All costs invoiced to a grant account must be allocable to the purpose of the grant.

Sincerely,

Caroline Appleyard

CHAIR, Institutional Animal Care and Use Committee
