

World Journal of Methodology,

Costimulatory blockade: a novel approach to the treatment of glomerular disease?

by Pasquale Esposito, Teresa Rampino, Antonio Dal Canton.

Department of Nephrology, Dialysis and Transplantation, Fondazione IRCCS Policlinico San Matteo and University of Pavia, 27100, Pavia, Italy

Dear Editorial Office,

As requested we include a conflict of interest statement.

In particular, the Authors state that this research received no grant from any funding agency and there is no conflict of interest, financial or other.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. Esposito', written over a horizontal line.

Pasquale Esposito, MD, PhD

Unit of Nephrology, Dialysis and Transplantation

Fondazione Policlinico "San Matteo", Pavia, Italy
