

## **Ethics and Institutional Review Board statement / Informed consent**

This is a case series and not a research study. Therefore ethics approval from the Ethics Committee is not required. However, it is approved by the Institutional Review Board of Rigshospitalet University Hospital (Denmark), Hull and East Yorkshire Hospitals NHS Trust (UK) and The Royal Brompton Hospital (UK) where the patients were treated. All patient gave informed consent.

A handwritten signature in blue ink, appearing to read 'Franzen', is written above a horizontal line.

**Dr. Olaf Franzen, MD**
