Dear Editors,

On behalf of all the co-authors of the manuscript titled "Pre-lung transplant measures of reflux on impedance are superior to pH testing alone in predicting early allograft injury", including Wai-Kit Lo, Robert Burakoff, Hilary Goldberg, Natan Feldman, and myself, I warrant that no author has any commercial associations (e.g., consultancies, stock ownership, equity interest, patent/licensing arrangements, etc.) that might pose a conflict of interest in connection with the Article. All funding sources supporting the work and all institutional or corporate affiliations of the authors are acknowledged in a footnote in the Article. There are no conflicts of interest to declare by any author related to the submitted work.

Thank you for your consideration and we look forward to hearing from you soon.

Sincerely,

Walter Chan
