

The exemption of Biostatistics statement

Our school did not have the certificate of statistical review. However, We have illustrated the method of statistics in my manuscript. All of our data conform to the method of statistics.

A handwritten signature in black ink, reading "Jiong Zhu". The signature is written in a cursive, flowing style. The first name "Jiong" is written with a large, sweeping 'J' that loops around the 'i'. The last name "Zhu" is written with a large, sweeping 'Z' that loops around the 'h' and 'u'. There are some small ink smudges and a few stray marks around the signature.
