

Dear Editorial Team,

We are re-submitting our manuscript entitled, 'Early Repolarization Syndrome: A cause of Sudden Cardiac Death' (Manuscript no: 17640) after making necessary modifications (below) in the light of the comments from the reviewers:

Name of journal: World Journal of Cardiology

ESPS Manuscript NO: 17640

1. A comment has been added to the 'Differential Diagnosis' section regarding ER seen in patients after CABG.
2. The ECGs for both benign and malignant types of ERS have been included. Er with horizontal ST segment has also been included. These ECGs clearly highlight the differences between the benign and the malignant types. The Brugada ECG- patterns are also included and it has been discussed in the Differential Diagnosis section. The differential of myocardial ischaemia from ERS has been added to the Differential Diagnosis section.
3. The molecular and cellular mechanisms underlying ERS have been included in a separate section.
4. The abstract and the main document (conclusions) have been modified in accordance with the comments by the reviewer.

Many thanks for accepting our manuscript for publication.

Kind regards,

Azeem S Sheikh
