May 28, 2015

Kazunari Sasaki,

Department of Digestive Surgery, Hepatopancreatobiliary Surgery Unit,

Toranomon Hospital, Tokyo, Japan

E-mail: [sasakikazunari1978@hotmail.com](mailto:sasakikazunari1978@hotmail.com)

<Protocol>

Title; Retrospective review of hepatectomies using microwave tissue coagulator during 20 years

Type of Study: Retrospective cohort study without any invasion

Primary investigator; Kazunari Sasaki M.D.

Study ID: 0702

The research ethics committee of Toranomon Hospital (RECTH) determined that the proposed activity is not research involving human subjects in RECTH regulation.

RECTH review and approval by this organization is not required. This determination applies only to the activities described in the RECTH submission and does not apply should any changes be made. If changes are made and there are questions about whether these activities are research involving human subjects in which the organization is engaged, please submit a new request to the RECTH for a determination.

Sincerely,

Minoru Ohno

Chairman, Institute Research Ethics Committee
