

**Name of Journal: World Journal of Nephrology**

**ESPS Manuscript NO: 18078**

**Manuscript Type: Original Article**

*Retrospective Study*

**Incidence and prevalence of hepatitis B and hepatitis C viruses in hemodialysis patients in Lebanon**

**Institutional review board statement**

This study is retrospective, involving anonymous clinical data without affecting the patient's rights and welfare. These data were obtained directly from the ministry of public health registries in collaboration with its general director. No IRB approval was required.
