

Dear Editors:

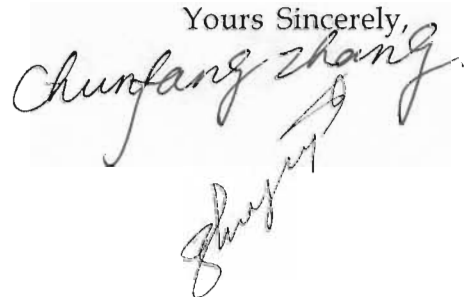

The manuscript "Overexpression of Chaperonin Containing TCP1, Subunit 3 Predicts Poor Prognosis in Hepatocellular Carcinoma", (ESPS Manuscript No: 18117) has been reviewed by an biostatistics editor. We fortunately invited Chun-Fang Zhang, an assistant research, whose major is biostatistics, from Peking University People's Hospital to review our manuscript and give suggestions to our statistical methods under reviewing. We must thank to her generous help.

Her contact information is as following:

Email: zhang.cf@foxmail.com. Telephone: +86-10-8832-5911.

Best wishes!

Yours Sincerely,

A handwritten signature in black ink, reading "Chunfang Zhang". The signature is written in a cursive, flowing style. Below the main signature, there is a smaller, less legible handwritten mark that appears to be "Zhang".
