(2) Replies to Reviewer 2: 00068443

1) This is an interesting overview of the literature related to Zebrafish as a hepatocellular carcinoma model. The paper is clearly written and contains valuable information. I agree the author's revision and response, but the author's judgement to the second reviewer is unfair. Some reviewers might read the manuscript and prepare the suggestion first and then click the "accept" button to fill the comments online.

Response:
