

### **Institutional Animal Care and Use Committee (IACUC) Statement**

MS: #18542. Revised

All procedures involving animals were reviewed and approved by the Institutional Animal Care and Use Committee [ New York Medical College] (IACUC protocol # IACUC # 4-1-0113), and conform to the guiding principles for the use and care of laboratory animals of the American Physiological Society, and the National Institutes of Health.

A handwritten signature in black ink, appearing to read 'Rajamma Mathew', with a long horizontal stroke extending to the right.
