

Ya-Juan Ma,

Science Editor, Editorial Office

Baishideng Publishing Group Inc

World Journal of Gastroenterology

Dear Doctor Ya-Juan Ma,

For more than 16 years I have been revising and editing for publication in the most prestigious international medical journals the articles produced by many of the departments of the two principal universities in Naples, Italy, including the department of Infectious diseases headed by Profs. Evangelista Sagnelli and Nicola Coppola and the Department of Medical, Surgical, Neurological, Metabolic, and Geriatric Sciences, of the Second University of Naples. I was born and educated in Great Britain, have diplomas in both English and Italian and have worked consistently as a medical/scientific text reviser for the past 30 years.

I have thoroughly revised the manuscript entitled "**HBV Burden in Developing Countries**" (ESPS Manuscript N° : 18697) submitted by Rosa Zampino, MD, PhD, for publication in the journal "World Journal of Gastroenterology".

I, therefore deem that it is fit for publication and does not require any further revision.

I remain at your disposal should you need any further information.

Yours sincerely

Elizabeth McGarry
