Re: Certification of manuscript editing

To Whom It May Concern:

The purpose of this letter is to certify that **Dr. Miguel Marcos** received professional English language editing services from our company, **Write Science Right™**, for a paper titled "**Alcoholic liver disease and hepatitis C virus infection**" (orders 150419-2, 150919-3). The principal work was completed by **Dr. Jennifer Piehl** and the follow-up edit was completed by **Dr. Ann Power Smith**, both of whom are native English-speaking Americans, biomedical scientists, and professional scientific editors.

All grammatical/syntactical errors and awkward verbiage have been revised to make the paper ready to submit for publication review. Assuming the author has accepted our advice and that the paper has not been modified further subsequently, it should be ready to proceed with the publication process. Feel free to contact me if you have any questions.

Best Regards,

A handwritten signature in dark ink, appearing to read "Ann EPS", with a long horizontal flourish extending to the right.

Ann Power Smith, PhD
