Reviewer1

1. Hemostatic procedure is one of the important techniques during endoscopic treatment. So water jet systems are widely used to find the bleeding point and to make a view during hemostasis. In order to achieve this purpose, some kinds of products are available in clinical practice. So could you comment about those points in the paragraph of water jets instruments for endoscopic therapy for tumor resection?

Answer

We added the sentence “An advantage of these water jet devices that washing of the surgical field or additional submucosal injection can be performed by flushing water through the knife without changing the instrument, resulting in marked improvements in the efficiency and safety of the procedure^[42].” in the *discussion*.

Reviewer2

1. The schematogram and endoscopy figures of "Use of water jet instruments in gastrointestinal endoscopy" is required in this document.

Answer

We added to our manuscript 3 figures of endoscopic view and their description. We added one more co-author “Atsuhiko Nakagawa” because he contribute to prepare those new figures.

2. You would better cite additional reference as follows. 1. Lee SH, Park YK, Cho SM, Kang JK, Lee DJ. Technical skills and training of upper gastrointestinal endoscopy for new beginners. *World J Gastroenterol*. 2015 Jan 21;21(3):759-85. doi: 10.3748/wjg.v21.i3.759. 2. Lee SH, Park YK, Lee DJ, Kim KM. Colonoscopy procedural skills and training for new beginners. *World J Gastroenterol*. 2014 Dec 7;20(45):16984-95. doi:

Answer

We added the sentences in the *introduction* referred to those two articles
