Thank you for your precise comments.

We agreed with your suggestions and added the article “Standard laparoscopic versus single-incision laparoscopic colectomy for cancer: early results of a randomized prospective study. Huscher CG, Mingoli A, Sgarzini G, Mereu A, Binda B, Brachini G, Trombetta S. *Am J Surg.* 2012 Jul;204(1):115-20” you pointed out, and changed the all tables, figure and manuscript accordingly.
