World Journal of Gastroenterology
Dear Editor,

Thank you for the constructive comments from the editors and reviewers on our manuscript (World Journal of Gastroenterology #19232). We have revised the manuscript as suggested by the editor and reviewers.

1. All figures are now submitted in powerpoint format.
2. The pathogenesis process of PBC is now discussed in figures 2 and 3.
3. We have modified the superscripts in the tables as suggested.
4. The conflict of interest statement is now included in the revised manuscript.
5. We have included the core tip in an MP3 file.

The revised manuscript, figures, core tip MP3 file are now included in this submission.

Sincerely,

A handwritten signature in blue ink that reads "Patrick S.C. Leung". The signature is fluid and cursive, with the first name "Patrick" being the most prominent.
