Name of Journal: *World Journal of Anesthesiology*

ESPS Manuscript NO: 19376

The manuscript has been improved according to the suggestions of reviewers:

1. We only noted a request for changes in reference presentation, punctuation and formatting. We also made a few small word changes to the first two sentences of the abstract. These have been done throughout the document and highlighted as requested. I emailed the editor, Yue-Li Tian, to see if there were further changes but I have not received a reply at this time.
2. As noted above, we have reviewed the requirement and adjusted the formatting to 12 point font in Book Antiqua with 1.5 line spacing.
3. Copyright assignment is attached
4. We created and attached an audio core tip.
5. Each author denies conflicts of interests. We each have signed a conflict of interest statement and attached (PDF).
6. The Google Scholar search has also been performed as requested (PDF attached).

7. We had difficulty with using CrossCheck, but we were able to use 3 other resources (plagtracker.com, grammarly.com and pladscan.com) which have the same function (PDF verifications attached). I emailed the editor, Yue-Li Tian, to see if this was acceptable but I have not received a reply at this time.
8. We are native English speakers.
