To whom it may concern

I hereby confirm that in my capacity as English native---speaker editor and translator I have worked with the author Giuseppe Musumeci on the linguistic revision and improvement of his article, "The effects of exercise on physical limitations and fatigue in rheumatic diseases."

The language of the revised version of this manuscript has reached Grade A.

Please do not hesitate to contact me should you have any queries.

Yours faithfully,

A handwritten signature in dark ink, reading 'Iain Halliday'. The signature is written in a cursive style with a long, sweeping underline that extends to the right.

Iain Halliday
