RE: WJG Number ID: 00039241 and Manuscript No. 19717

Dear Mr./Ms. Ma,

Attached please find our revised review manuscript entitled “*Immune and Non-Immune Responses to Hepatitis C Virus Infection*” (Number ID: 00039241; Manuscript No. 19717). We appreciate reviewer’s comments and helpful suggestions. As suggested by the reviewer, we have added two fairly simple illustrations to help readers to understand the adaptive as well as the innate immune responses to HCV infection. All molecules in these figures are explained in detail in the text. We are confident that added illustrations have improved manuscript.

Thank you for your time and efforts with our manuscript. With best regards,

Sincerely,
