## To Whom May It Concern

I hereby certify that the English language used in the manuscript entitled " Epithelial Toll-like Receptor 9 Signaling in Colorectal Inflammation and Cancer: Clinico-pathogenic Aspects" (Authros: István Fúri, Ferenc Sipos, Tiana M. Germann, Alexandra Kalmár, Zsolt Tulassay, Béla Molnár, Györgyi Múzes, Journal: World Journal of Gastroenterology; ESPS No: 1995) is reliable and correct, and the language quality reaches at least "good (grade B)" level.

Budapest, 6<sup>th</sup> March, 2013.
