

Dear Editor and Reviewers,

We appreciate very much your work, and suggestions about our manuscript “ The use of antibiotic-loaded cement in total knee arthroplasty” (Manuscript 20010. World Journal of Orthopedics).

- Reviewer 02444788:

We are very proud after your comments finding our manuscript really interesting and well written, recommending to accept it.

The only suggestion you did about the language polishing has been done by a native English-speaker.

- Reviewer 02444730:

We really appreciate your suggestion about the abstract. We have focused on improve the abstract. As you know, the instructions for authors of World Journal of Orthopedics ask for an unstructured abstract with at least 200 words. We have tried to improve the abstract according to your suggestions

- Editor:

We really appreciate your suggestions

-Authors' full names are given in the title page.

-After authors' full names, the name of institution has been added

-Telephone and fax numbers of the corresponding author has been added.

- The author contributions are now explained.

- The conflict-of-interest is now stated.

- An unstructured abstract according to the authors instructions is in the text. The abstract has tried to be improved according to reviewers' suggestions.

Kind regards,

Pedro Hinarejos and co-authors
