

Padua, 28th August, 2015

Dear Editor,

I resubmit the paper entitled "**MULTIMODALITY TREATMENT OF RECURRENT PANCREATIC CANCER: MITH OR REALITY?**"

by, **C. Sperti, L. Moletta, S. Merigliano** revised as reviewers' suggestions for possible publication in World journal of Gastrointestinal Oncology (WJGO).

First of all, I thank very much the reviewers for their valuable suggestions, and I would like to answer point by point to their comments.

Reviewer 1. No comments. References have been reviewed as journal's style.

Reviewer 2.

- 1) CA 19-9 expression. I agree that a correct percentage of Lewis negative phenotype is 5-10%. The sentence has been corrected in the text.
- 2) The article of Park JK, Paik WH, Ryu JK, Kim YT, Kim YJ, Kim J, Song BJ, Park JM, Yoon YB. PLoS One. 2013 Nov 8;8(11):e78977. doi: 10.1371/journal.pone.0078977. eCollection 2013 has been added in the text and in the references' list (Ref. nr 19)
- 3) NCCN" appears without full spelling in the text. Full spelling has been introduced in the text and references.
- 4) English expression can be further improved. English language has been corrected.

All the changes in the manuscript are highlighted in yellow.

I hope to satisfy all reviewers' suggestions, and I hope that the manuscript is suitable for publication in WJGO in this form. I declare that all the authors are aware of and approve the manuscript being submitted to this journal.

Sincerely yours,

Cosimo Sperti, MD,

Department of Surgery, Oncology and Gastroenterology, 3rd Surgical Clinic, University of Padua, via Giustiniani 2, 35128 Padova, Italy.
