

October, 1st 2015

Dear editor,

herewith please find our personal guarantee for the language presentation of our manuscript.

Title: Comparisons between 18F-FDG and 18F-NaF PET/CT in breast cancer patients with bone lesions.

Authors: Selene Capitanio, Francesca Bongioanni, Arnoldo Piccardo, Claudio Campus, Roberta Gonella, Lucia Tixi, Mehrdad Naseri, Michele Pennone, Vania Altrinetti, Ambra Buschiazio, Irene Bossert, Francesco Fiz, Andrea Bruno, Andrea De Censi, Gianmario Sambuceti, Silvia Morbelli.

Name of Journal: World Journal of Radiology.

ESPS Manuscript NO: 20104.

We submitted the text to the attention of a native English speaker. Accordingly, on the basis of his considerations, we made the suggested corrections. Therefore, we believe that the language of the manuscript has now reached Grade A.

Sincerely,

Silvia Morbelli

on behalf of all authors
