

**Study:** The triradiate caecal fold: Is it a useful landmark for caecal intubation in colonoscopy?

**Authors:** Andrew Finlayson, Raaj Chandra, Ian A Hastie, Ian T Jones, Susan Shedda, Michael K-Y Hong, Aileen Yen, Ian P Hayes

The statistical methods of this study were performed by Andrew Finlayson, but they were reviewed by all authors, many of whom are experts in biomedical statistics. In particular, Susan Shedda (Masters of Public Health) provides expert biostatistical support for clinical projects on a regular basis. The statistics in this study are certified to be correct, adequately described and appropriate for the subject matter.
