Dear Editor,

Please find enclosed the edited manuscript in Word format (file name:20667-minireview.doc).

Title: Benign neck masses showing restricted diffusion: Is there a histological basis for discordant behavior?

Author: Abanti Das, Ashu S Bhalla, Raju Sharma, Atin Kumar, Meher Sharma, Shivanand Gamanagatti, Alok Thakar, Suresh Sharma

Name of Journal: World Journal of Radiology

ESPS Manuscript NO: 20667

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

- (1) This manuscript tried to answer a central question in the DWI-MRI imaging: Is there a histological basis for discordant behavior? The authors showed an imaging spectrum of a benign neck masses with discordant behavior on DWI. In this work, the authors gave a detailed introduction on how and why they wanted to perform this work. They also reviewed different tumours such as Warthin's, Nerve Sheath, Paraganglioma, Meningioma, Solitary Fibrous, Hemangiopericytoma, and Myoepithelial tumor. I believe the information in this work can benefit the readers who are in the field of MRI

in WJR.

As per reviewer's comment (00225366), no changes were suggested in the submitted manuscript.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Radiology*.

Sincerely yours,

.....
