

## English language certificate

The manuscript number 20708 entitled '**Mild oxidative stress is beneficial for sperm telomere length maintenance**' submitted in the **World Journal of Methodology** has been reviewed for grammatical clarity and appropriate vocabulary by me and this is to certify that the manuscript is written in grammatically correct English and the authors have used appropriate vocabulary to convey their research work to the readers.

A handwritten signature in purple ink that reads "Monis" with a horizontal line underneath.
