Dear Reviewers,

Thank you for your valuable inputs on our review article.

Please find the attached point to point responses to your suggestions.

### Responses to Reviewers

#### As suggested by reviewers

1. Table 2 is redundant, because the authors reported the contents closely in the manuscript. Therefore, the authors should delete Table 2.

**Table 2 has been deleted.**

2. There are no reference numbers in Table 3. The authors should add them in Table 3.

**Reference numbers have been added in Table 3.**

3. There are no abbreviations in Figure legends. The authors should add them in Figure legends.

**Abbreviations have been added in Figure legends.**
