

Name of Journal: World Journal of Hepatology
ESPS Manuscript No: 21227
Manuscript Type: Review

Epidemiology of hepatitis C virus exposure in Egypt: Opportunities for prevention and evaluation.

Running title: Miller FD et al. Epidemiology of HCV in Egypt

F. DeWolfe Miller, Mahmoud S. Elzalabany, Sara Hassani, Diego F. Cuadros

F. DeWolfe Miller, Department of Tropical Medicine, Medical Microbiology and Pharmacology, School of Medicine, University of Hawaii, Honolulu, Hawaii 96826, USA

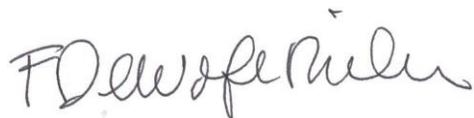

Mahmoud S. Elzalabany, Department of Internal Medicine, Ahmed Maher Teaching Hospital, Cairo 11638, Egypt

Sara Hassani, School of Medicine, Boston University, Boston, MA 02118, USA

Diego F. Cuadros, Weill Cornell Medical College - Qatar, Qatar Foundation - Education City, P.O. Box 24144, Doha, Qatar.

Biostatistics

This study was entirely conducted through review of available scientific literature, and therefore we did not make use of any statistical methodology nor conducted any biostatistical evaluation.

A handwritten signature in black ink, appearing to read 'FDewolfe Miller', is positioned below the text. The signature is written in a cursive, flowing style.
