

## **RESPONSES TO REVIEWERS**

**Dear Editor,**

We revised our manuscript entitled “Percutaneous peritoneal drainage in the management of isolated neonatal gastric perforation” (Ref: 21301) according to the reviewer’s comments. The corrections are made by using the “tracking the changes” feature. Responses to the reviewer’s comments are given below:

Sincerely Yours,

### **Response to Reviewer - 1**

- 1.** The information about the use of antibiotic and technical detail of drainage are given.
- 2.** The language is revised by native speaker.
